HOME DECOR CENTRE
ESTABLISHED 1993

Shadecloth structures are custom made to your requirements, structures are either made on site or manufactured in our factory and brought out to site.

Assembled using 50 mm aluminium powder coated box sections and any required angles and mesh retainers needed.

PVC wedge or ridged spline is used to hold the shadecloth, which is hammered into the box section groove.

Spacing are mostly around one meter wide to prevent movement in cloth. The shadecloth has a 90% UV protection and is available in colours cream, black "see through" or we do have a motley black colour for extra privacy.
