

# Panel Glide Blinds by FHA Wholesale

## TRANSFORMING A ROOM WITH A CULTURED, SOPHISTICATED LOOK

### Features & Benefits

- **Blockout, light filter & sunscreen fabric:** Set the tone of the room with colour, mood and light control.
- **Tracking system:** The benefit you get from the roller mounted carrier system is a lightweight blind that is easy to operate. The track is very slim and discrete.
- Choose from either timber or aluminium battens, available in a number of colours.
- **Removable panels:** Change the colours of your panels to give your home a new look simply and easily.
- **Optional extra:**
  - Pelmet: The pelmet infill is co-ordinated with your chosen Panel Glide fabric and provides a stylish modern finish for your room.

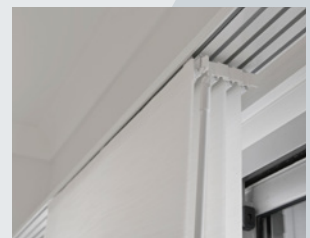

Panel Glide Blinds provide a contemporary method of obtaining privacy and sun protection in both domestic and commercial installations. This innovative shading solution for large windows, sliding doors and bi-fold doors looks fabulous in ultra modern or traditional interior design schemes.

What makes the Panel Glide Blind so unique is the wide panels that effectively reflect and filter daylight. When open, the panels stack neatly behind one another allowing maximum light into the room. Sliding the panels into the closed position creates a complete fabric screen providing light control and increased privacy.

Panel Glide Blinds will transform any room with its sophisticated look. Select from a large range of quality blockout or translucent light filtering fabrics, giving you better light control and enhancing your room's ambience.
